SUMMARY

Full-stack Engineer with 8+ years of experience. Passion for frontend development and **React**. Experienced in building scalable SaaS products with a strong focus on performance, usability, and clean UI architecture. Enjoys collaborating with teams to deliver high-quality user experiences.

WORK EXPERIENCE

- Software Lead Engineer, HelloSend | India

Jan 2021 - Jan 2025

 - After an 8-year career break, I developed and **launched a SMS marketing web app** using React and Node.js in the **Shopify Marketplace**, marking the **team's first-ever e-commerce web app** milestone, expanding beyond their 40+ CRM app portfolio.
 - Played a key role in **AWS DynamoDB optimisation** resulting in **reducing 40% the maintenance cost**
 - Initiated the **transition to React**, which **reduced our web app loading time from 3.5 seconds to 2 seconds**, significantly improving the user experience.
 - Implemented **Cypress** end-to-end testing and improved development workflows.
- Software Engineer, ZOHO | India

Jan 2008 - Jan 2013

 - Full Stack Developer** in the Zoho Writer Team, the online word processor.
 - Developed the critical modules like Sharing and **REST APIs** in Zoho Writer.
- Engineer Trainee, ZOHO | India

Jun 2007 - Dec 2008

 - Trained in the web technologies like **Java, Javascript, MySQL and CSS** to work in the development team in ZohoWriter, the online word processor.
 - Introduced in debugging, issue fixing and quality testing, enhancing the existing features of Zoho Writer.
